

Rajesh Chaurasia

UI UX Architect, Designer | Product-Focused Frontend Leader

#6386313937 | rajuxdesigns@gmail.com | [Linkedin](#) | [Portfolio](#)

Profile summary

UX Architect and Product-focused UI/UX Designer with extensive experience in creating intuitive and visually compelling **user-centric, scalable digital** software products across SaaS, ad-tech, and enterprise platforms. Strong expertise in **UX research, information architecture, interaction design, and usability optimization**, combined with hands-on frontend development skills to ensure design feasibility and execution excellence.

I leverage **AI-powered UX tools** for rapid prototyping, generative design exploration, content variation, and experience personalization - enabling faster decision-making and improved user outcomes.

I specialize in translating **complex business requirements into intuitive user journeys**, validating ideas through **research, prototyping, usability testing, and data-driven insights**. Adept at collaborating with product managers, engineers, sales, and stakeholders to define **product vision, roadmaps, and UX strategy** while owning the experience from discovery to delivery.

Known for bridging the gap between **design, technology, and business**, ensuring **accessibility, performance**, and consistency across platforms. Experienced in leading UX initiatives, mentoring teams, supporting **POCs, demos, and pre-sales activities**, and driving measurable improvements in engagement, **usability**, and **conversion**.

Own the **product lifecycle (PLC)** from initial concept to delivery. Key skills include:

- UX Strategy & Product Design Thinking
- User Research & Journey Mapping
- Information Architecture & Interaction Design
- Usability Testing & Accessibility (WCAG)
- Wireframing & Low/High-Fidelity Prototyping
- Design Systems & Scalable UI Architecture
- A/B Testing & UX Optimization
- Stakeholder Collaboration & UX Advocacy
- Agile Product Development & Scrum
- End-to-End Product Lifecycle Ownership

Technical Skills

- **UX/UI Design:** Figma, Sketch, Photoshop, Wireframing, Illustrator, InVision, UXPin etc.
- **Frontend:** HTML5, CSS3, SASS, Bootstrap, Tailwind, JavaScript, jQuery, React, Redux, Next JS, Angular, HighChart, Node JS, Express JS, MongoDB etc.
- **Testing Frameworks:** Jest, Jasmine, React Testing Library
- **Version Control:** Git, GitHub, GitLab, Bitbucket.
- **Agile & Scrum Methodologies :** Product Roadmaps, Sprint Planning, Backlog Management, Cross-functional Team Collaboration, Jira, Confluence
- **Analytics:** Google Analytics, Optimizely, Heatmaps, User Behavior Analysis, Conversion Rate Optimization (CRO)
- **AI Tools:** Paraflow, Adobe Firefly, designs.ai, Copilot , Gemini etc
- **Other Tools:** Jira, Acrobat, FTP, Developer tool

Education

- ★ **Bachelor of Science in Computer Application**, Manonmaniam Sundaranar University
- ★ **Diploma in Computer Application**, Aptech Computer Education
- ★ **Web & Multimedia Designing / Animation Certification**, Oxford Software Institute
(A unit of Hindustan Soft Education Ltd.)

Work History

❖ **Digital developer** — Blis Media — April 2019 – June 2024

Profile: UI Development, React js, JavaScript Developer, wordpress developer, Creative Ad Designing

Projects: blis.com | showcase.blis.com | creative.blis.com | Ad management tool | Dynamic Ad development

Responsibilities:

- Led **UX and UI implementation** for ad-tech platforms, ensuring consistent experience across web and ad creatives.
- Collaborated with stakeholders and clients to **translate campaign goals into effective user-centric ad experiences**.
- UI Development and maintenance company website Blis.com using wordpress.
- Designed and optimized **dynamic ad interactions**, improving engagement and performance across devices.
- Consulted on **custom ad solutions**, balancing user experience, performance, and technical feasibility.
- Supported client demos, technical walkthroughs, and UX recommendations during campaign planning.

Focus: UX-driven UI development, cross-device experience, performance optimization

Tech: Figma, Photoshop, UXpin, Celtra, JavaScript, JQuery, React, HTML5, CSS3, WordPress, Celtra, AWS.

❖ **Senior Technical Lead (UX Architect)** — 3Pillar Global — Sep 2015 – Apr 2019

Profile: Product Management, Product Strategy Planning, Wireframe, Information Architect, Visual Design, Technical UI Architecture, Development and module integration etc.

Projects: gocanvas.com

Canvas is a cloud-based software service that enables businesses to replace expensive and inefficient paper forms with powerful apps on their smartphones and tablets.

Responsibilities

- Lead product planning, execution, aligning features with business goals and user needs.
- Conducted **UX research, user journey analysis, and usability evaluations** to inform product decisions.
- Designed wireframes, interaction models, and scalable UI patterns aligned with business goals.
- Partnered with product managers and engineers to ensure design integrity throughout development.
- Ensure scalable and maintainable UI designs, integrating seamlessly with technical architecture.
- Acted as a bridge between stakeholders and delivery teams, advocating for user-first design decisions.

Focus: UX architecture, SaaS product design, enterprise usability

Tech: Photoshop, Figma, Sketch, Invision, AngularJS, JavaScript ES6, HTML5, CSS3, Jasmine.

❖ **UX/UI Designer** — SOTI India — Jan 2015–Sep 2015

Profile: UX Research, Information and UI Architect, Visual Design, UI Development and module integration etc.

Projects: Network Monitoring Tool

Responsibilities:

- Conducted user research and created wireframes, prototypes, and visual designs to optimize user experience.
- Worked with developers to ensure seamless integration of UI designs with backend systems.

Tech: Photoshop, HTML5, CSS3, AngularJS, JavaScript
