

RAJESH CHAURASIA

Senior Frontend Developer | React.js • Next.js • UI/UX Engineering

+91 6386313937 • rajuxdesigns@gmail.com • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Frontend Developer with 9+ years of experience building scalable, high-performance web applications using React.js, Next.js, and modern JavaScript. Combines strong frontend engineering skills with UX expertise to deliver accessible, user-centric products across SaaS, ad-tech, and enterprise platforms. Proven track record of leading UI architecture, mentoring teams, and collaborating with cross-functional stakeholders to drive measurable improvements in performance and user engagement.

TECHNICAL SKILLS

Frontend Frameworks: React.js, Next.js, Angular, Redux, React Query, React Hooks, React Query

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS/SCSS

UI / Styling: Tailwind CSS, Bootstrap, Styled Components, Responsive Design, WCAG Accessibility

Backend / APIs: Node.js, Express.js, MongoDB, REST APIs, GraphQL

Testing: Jest, React Testing Library, Jasmine

Design & Prototyping: Figma, Sketch, InVision, UXPin, Adobe Photoshop/Illustrator

DevOps & Tools: Git, GitHub, GitLab, Bitbucket, Jira, Confluence, AWS (Amplify, S3, Beanstalk), Webpack, Vite

Analytics & Optimization: Google Analytics, A/B Testing, Heatmaps, Performance Optimization

Methodologies: Agile / Scrum, Sprint Planning, Backlog Management, Component-Driven Development

WORK EXPERIENCE

Frontend Developer / UI Engineer | Blis Media - Apr 2019 – Jun 2024

Led frontend development and UX implementation for ad-tech platforms serving global clients.

- Built and maintained React.js-based ad management tools, improving rendering performance and cross-device compatibility.
- Developed dynamic, data-driven ad creatives using JavaScript and React, boosting campaign engagement metrics.
- Engineered and maintained company website (blis.com) using WordPress + custom JavaScript integrations.
- Collaborated with product managers and clients to translate campaign requirements into scalable UI components.
- Implemented responsive, accessible UI designs across web and mobile, ensuring WCAG compliance.
- Conducted client demos and UX walkthroughs, supporting pre-sales and technical planning activities.
- Optimized frontend performance via lazy loading, code splitting, and asset optimization — reducing load times by ~30%.

Tech Stack: React.js, JavaScript (ES6+), HTML5, CSS3, Figma, Photoshop, jQuery, WordPress, AWS, Celtra

Senior Technical Lead | 3Pillar Global - Sep 2015 – Apr 2019

Led frontend architecture and UX strategy for GoCanvas, a cloud-based SaaS platform replacing paper forms for enterprise clients.

- Architected scalable React/Angular component libraries adopted across the entire product, reducing UI development time by 40%.
- Defined and enforced frontend coding standards, design patterns, and reusable component architecture across teams.
- Conducted UX research, user journey mapping, and usability testing to inform product decisions and roadmap priorities.
- Designed wireframes, high-fidelity prototypes, and interaction models aligned with business goals in Figma and Sketch.
- Partnered with backend engineers to integrate REST APIs and ensure seamless data-driven UI experiences.
- Mentored junior developers and designers, conducting code reviews and establishing best practices.
- Acted as bridge between stakeholders and engineering, translating business requirements into technical specs and user stories.

Tech Stack: AngularJS, JavaScript ES6, React.js, HTML5, CSS3, Figma, Sketch, InVision, Jasmine

UI Developer | SOTI India - Jan 2015 – Sep 2015

Developed frontend for a network monitoring tool used by enterprise IT teams.

- Built responsive UI components and dashboards using AngularJS, HTML5, and CSS3.
- Conducted UX research and created wireframes and prototypes to optimize monitoring workflows.
- Collaborated with backend developers to integrate APIs and ensure accurate real-time data display.

Tech Stack: AngularJS, JavaScript, HTML5, CSS3, Photoshop

KEY ACHIEVEMENTS

- Reduced frontend page load time by ~30% through code splitting, lazy loading, and asset optimization at Blis Media.
- Led UI architecture of GoCanvas SaaS platform, reducing component development time by ~40% via reusable design system.
- Delivered end-to-end UX redesigns that improved user task completion rates and reduced support tickets on enterprise tools.
- Supported multiple client demos and pre-sales engagements, directly contributing to new business acquisition at Blis Media.

EDUCATION

Bachelor of Science in Computer Applications — Manonmaniam Sundaranar University

Diploma in Computer Applications — Aptech Computer Education

Web & Multimedia Design / Animation Certification — Oxford Software Institute
